SYLK

Natural lubricant for men and women made from kiwifruit plant extract

SYLK® is a natural lubricant made from kiwifruit plant extract. It has proved to be skin-friendly and well-tolerated for decades.

Uses:

SYLK® provides lubrication without causing a build-up of heat on the skin. Desire is able to be better during sexual intercourse, cracks are able to be averted and infections occur less often.

Properties:

- very economical
- colourless and odourless
- water-based
- clinically tested
- compatible with latex, polyurethane and polyisoprene condoms
- preserved using grapefruit seed extract

Note:

Owing to its slightly acidic pH, couples trying to conceive should not use SYLK® during fertile periods. We recommend **Prefert®** Vaginal Gel (PZN 7578699) instead when trying to conceive.

Ingredients:

- Purified Water
- Sodium Citrate
- Citric Acid
- Potassium Sorbate
- Grapefruit Seed Extract
- Vegetable Glycerine
- Kiwifruit Extract
- Xanthan Gum

pH value: 4,4 – 4,7

Free from animal products, silicones and parabens.
